

Photo campaign

Thank you for taking part in our photo campaign! It couldn't be easier – just follow the 3 steps below...

Step 1

Take a photo of yourself on your cycle, or ask a friend/family member to take one for you - or simply upload one if you already have an image to hand! (just make sure it's clear and that the whole of your cycle is clearly visible)

Step 2

Take five minutes to answer our short questionnaire below (the information we gather will be used to inform and add power to our campaign: your answers can be as brief or as long as you like)

Please note that by sending us your photo and story you agree to Wheels for Wellbeing using these as part of our ongoing campaigning work

1. What difference does using your cycle as a mobility aid make to your life?
2. What challenges, if any, have you encountered when using your cycle as a mobility aid? (feel free to give specific examples, locations, incidents etc.)
3. If there was one thing that could change to help you to use your cycle as a mobility aid, what would it be?

Personal details

This is to help evidence to funders the impact that our campaigns are having on real people

Name:

Gender:

Age:

Post Code:

Step 3

Pop your questionnaire answers and personal details into an email, attach your photo and send to info@wheelsforwellbeing.org.uk. That's it!
